How it all started

Our story began with a passionate and energetic group, all driven by various considerations. The common thread among all these concerns was a strong desire for making an impact, particularly in the most fundamental sphere: the realm of children.

With this objective in mind and relying on extensive research, we took a challenging step towards the production of toys. These toys are not merely for entertainment but rather designed to foster the growth of children's proficiencies. From fine motor skills to cognitive and communicative abilities, we firmly believe that play is a child's profession.

In our team, we have brought our ideas to life in our games through two categories: indoor plays and customized designs. Our mission is to make a significant impact in nurturing the growth and happiness of children within our domain.

Boomzi strives to create and manufacture toys that embody a harmonious fusion of superior quality, compliance with child safety standards, and a thoughtful integration of diverse skill-based games through scientific design.

Our goal is to produce the highest quality wooden toys by employing innovative methods, machinery, cutting-edge technologies, and utilizing the finest raw materials. We aim to create a product that satisfies domestic consumers and entices international markets to choose Iranian-made toys. Over the years, we have taken significant steps on this path.

Deserving of appreciation at the fourth Firouzeh Prize festival,

Deserving of recognition at the National Packaging Design Award.

BAZIBOOMS

What are Bazibooms?

Bazibooms are large busyboards. Bazibooms are the result of arranging various games and tools on a wooden board in custom dimensions, providing children with the opportunity to experience a unique and exciting form of play.

Children, while playing with Bazibooms discover, touch and become familiar with the functioning of everyday objects and tools. They immerse themselves in their own imaginative world. These games enhance various skills in children, as shown in the table across:

Boomzi's Bazibooms offer versatile design options and the ability to adapt to various forms and sizes, making them suitable for a diverse range of spaces hosting children. Whether it's preschools, playhouses, hospital waiting areas, clinics, hotels, child counseling centers, shopping malls, or other settings, Bazibooms find widespread application. Their flexibility allows for seamless integration into any environment where children engage in play and exploration.

PERFORMANCE GUIDE TABLE

Visual Senses Auditory Senses Sense of Touch	SENSORY DEVELOPMENT 
Eye-hand coordination  Hand exercises	FINE MOTOR SKILLS DEVELOPMENT 
Creativity  Problem-solving  Attention to detail  Life skills  Spatial and temporal perception 	COGNITIVE SKILLS DEVELOPMENT 
Emotional awareness Expression of emotions Social etiquette Enhancement of verbal language skills	COMMUNICATION SKILLS DEVELOPMENT 
Familiarity with numbers Concept of addition and subtraction Geometric shapes	UNDERSTANDING MATHEMATICAL CONCEPTS

BUSY BOARD

Size: 73 x 240 cm

Material: A multi-layered waterproof wooden board with a standard coating suitable for children's toys

SLOPPED TREE

Movement of fruit beads on the sloping surface of the tree

56cm x 60cm 

+12M

BALL AND TUBE

Dropping colorful balls into a tube and observing how they fall

70cm x 14cm 

+10M

+10M **SUN**

-  Watching colorful beads move inside a spinning sun and hearing its sound

17cm x 17cm 

+10M **ABACUS**

-  Movement of colorful beads on a wooden axis

23cm x 10cm 

+12M **3D PUZZLE**

-  Rotating the cubes around the wooden axis to complete the final image

Flexible dimensions 

BUSY HOUSE

Size: 80 x 120 cm

Material: A multi-layered waterproof wooden board with a standard coating suitable for children's toys

Functionality: A wooden cube with 6 faces (4 lateral faces and 2 roof faces) that provides the ability to assemble and disassemble the house through complete and tongue-and-groove connections

BELL

Shake the bell to hear its sound

+10 M

9.5cm x 8cm

WARP AND WEFT

Create a pattern using warp and weft threads

+18 M

Flexible dimensions

|| A home that's totally yours ||

+18 M CITY

- Vehicle beads moving from the city square to their designated stations
- Flexible dimensions

SHAPE PLACEMENT +12 M

Placing each shape in its appropriate position

35cm x 17cm
Flexible dimensions

PAPER ROLL +10 M

The experience of painting with any tool on a canvas

Flexible dimensions

Splash some color on the walls of your home yourself!

TRAIN

|| ||
Choo-Choo!
Where should we travel to?

Size: 400 x 120 cm

Material: A multi-layered waterproof wooden board with a standard coating suitable for children's toys

Functionality: One locomotive and two wagons that can be operated separately

Size: 130 x 120 cm

Material: A multi-layered waterproof wooden board with a standard coating suitable for children's toys

PUZZLE AND BEADS

+24 M

Selecting a puzzle from the patterns and moving the beads along the path to create it

32.8cm x 28.7cm

ELECTRICAL JUNCTION BOX

+12 M

Playing with actual tools, sockets, and connecting them to the junction box

15cm x 15cm

ROLLER

+10 M

Rotating the roller and feeling its texture

21.5cm x 21.5cm

Size: 108 x 120 cm

Material: A multi-layered waterproof wooden board with a standard coating suitable for children's toys

+18 M

SHAPE PLACEMENT

Matching and placing shapes by aligning their cuts with the installed shapes on the game board

36cm x 12cm

+10 M

Movement of shapes along the path and revealing hidden elements behind bushes

62cm x 25cm
Flexible dimensions

+12 M

EMOTIONAL WHIRLWIND

Understanding various emotions and discussing them

25cm x 25cm

RULER

Moving the beads along the path and placing each bead at its correct number

33cm x 42cm

+24 M

CARWASH

Introducing the car components (steering wheel, lights, wheel movements) and the washing process

33cm x 42cm

+18 M

PUZZLE

Completing the shape by moving the squares along the path

18cm x 10cm

+24 M

Size: 108 x 120 cm

Material: A multi-layered waterproof wooden board with a standard coating suitable for children's toys

MAZE

Size: 150 x 65 cm

Material: A multi-layered waterproof wooden board with a standard coating suitable for children's toys

MAZE

Rotating the board and guiding the colorful beads towards the desired point

67cm x 50cm

+36 M

SLOPING SURFACE

The movement of different beads on the sloped surface of the tree trunk

70cm x 40cm

+12 M

Spin and discover your unknowns!

PINWALL HOUSE

Size: 164 x 125 cm

Material: A multi-layered waterproof wooden board with a standard coating suitable for children's toys

WINDOW

Unlocking the window by exploring different types of locks

33cm x 42cm 

+18 M

PINWALL

Placing the beads with different patterns and colors onto the embedded holes on the game board

Flexible dimensions 

+12 M

DOOR AND LOCKS

Unlocking the door, discovering different lock mechanisms, and discovering hidden elements (such as a printed image, mirror, etc.)

33cm x 42cm 

+18 M

CHATTY TREE

Listen Carefully!

Size: 140 x 100 cm

Material: A multi-layered waterproof wooden board with a standard coating suitable for children's toys

+18 M CUBE PUZZLE

Animal-themed puzzle; Learning about their sounds and nature by pressing the buttons

Flexible dimensions

+12 M CARROUSEL

Rotating the carrousel and watching the sound and movement of the colorful beads

30cm x 8cm

CHATTY CASTLE

Size: 164 x 125 cm

Material: A multi-layered waterproof wooden board with a standard coating suitable for children's toys

CITY

Moving the vehicles towards the stations associated with each bead's image

Flexible dimensions

+24 M

PUZZLE

Completing the shape by moving the squares along the path

28cm x 28cm

+24 M

ELECTRICAL BOX

Understanding the functionality of electronic fuses and their operation (sound or light indication)

28cm x 28cm

+24 M

Rule your castle like a king!

NEST

Size: 77 x 79 cm

Material: A multi-layered waterproof wooden board with a standard coating suitable for children's toys

+18 M

BEADS ON PATH

Bringing beads to stations and hearing its specific sounds by pressing the buttons next to it

Flexible dimensions

OLD HOUSE

Size: 118 x 64 cm

Material: A multi-layered waterproof wooden board with a standard coating suitable for children's toys

|| ||
When one door closes, another opens

DOOR AND LOCKS

+18 M

Unlocking the door, exploring lock mechanisms, and discovering hidden elements

Flexible dimensions

MILL

Size: 156 x 87 cm

Material: A multi-layered waterproof wooden board with a standard coating suitable for children's toys

|| ||
What goes around comes around

MILL

+24 M

Rotating the green circle, resulting in the rotation of the upper part of the mill

156cm x 87cm

FIREMAN

Size: 120 x 64 cm

Material: A multi-layered waterproof wooden board with a standard coating suitable for children's toys

Where there's smoke, there's fire

BEADS ON PATH

M+18

Movement of the pieces along the path and placing them in their appropriate positions

Flexible dimensions

HONK

Pressing the horn to make sound

+12 M

10cm x 8cm

SPINNER

+12 M

Spinning the spinner and observing its movement

15cm x 15cm

Size: 120 x 60 cm

Material: A multi-layered waterproof wooden board with a standard coating suitable for children's toys

ASTRONAUT

Size: 120 x 64 cm

Material: A multi-layered waterproof wooden board with a standard coating suitable for children's toys

BEADS ON PATH

+12 M

Movement of the pieces along the path and placing them in their appropriate positions

CUSTOM MADE

CUSTOM MADE BUSYBAORDS

Boomzi has provided the opportunity for their audience to order a customized Baziboom based on the available space, dimensions, and specific needs. You can choose your desired layout based on the available space and suggest the selected games to be included on the Baziboom. The Boomzi design team will then interactively design a Baziboom according to your preferences. This Baziboom will be tailored to your specific goals in enhancing children's skills. This has led to a diverse range of Boomzi playsets, both in terms of their appearance and the intended spaces for the presence of the Bazibooms. They are designed to meet the needs of the audience, the child's requirements, and psychological and scientific principles.

Now its your turn!

BOOMAK

WHAT IS BOOMAK?

Boomaks are downsized versions of Bazibooms that are designed in two dimensions: 39 x 39 centimeters and 50 x 50 centimeters. They can also be enjoyed by children outside of formal settings, allowing for imaginative play and exploration at home or in other personal spaces.

INSTALLED BAZIBOOMS SO FAR:

1. Solaleh Playhouse/ Tehran-Iran
2. Puzzle Playhouse/ Tehran-Iran
3. Narenji Playhouse/ Isfahan-Iran
4. Balonia Playhouse- Fereshteh/ Tehran-Iran
5. Discovery Center Playhouse- Niavaran / Tehran-Iran
6. Therapeutic Clinic/ Birjand-Iran
7. Dr. Mirghafoorian's Dental Clinic/ Tehran-Iran
8. Roshana Psychology Clinic/ Tehran-Iran
9. Poopak Preschool/ Tehran-Iran

INDOOR PLAYS

WHAT ARE BOOMZI INDOOR PLAYS?

In Boomzi, alongside Bazibooms which are designed for group play in children's spaces, skill-based games that enable individual play at home are also designed and produced.

These games, like the Bazibooms games, help enhance cognitive and communication skills, sensory development, fine motor skills, as well as mathematical understanding.

HABBEH

+12 M

How to play: Each cube face features a unique game that enhances various skills in children

Material: Russian wood with a standard waterproof coating for children's toys

Size: 5 x 5 x 5cm

PINEHDOOZ

How to play: Each animal has two-colored felt outfits, and the child can sew the clothes onto the animal using colorful ribbons with different patterns.

Material: Multi-layered waterproof wooden pieces with a standard coating for children's toys.

Package Size: 20 x 20cm

CHARCHOOB

How to play: The child experiences the Geo Board game by placing wooden pegs on the board and connecting rubber bands to them. Additionally, they have the opportunity to unleash their imagination by placing wooden sticks on the board using the pegs. The arrangement of the rubber bands and wooden sticks can also follow the patterns on the cards.

Material: A multi-layered waterproof wooden board with a standard coating suitable for children's toys

Peices: A perforated board measuring 25 x 25 cm

36 wooden sticks in various geometric shapes and colors

6 gear wheels in different colors

One pack of wooden pins

One pack of colored rubber bands

12 pattern cards with 24 designs

One whiteboard card

Package Size: 35 x 35cm

QABRANG

How to play: Children can have an exciting experience of playing with light, shadow, and color by manipulating and arranging the pieces. They can explore the effects of different placements and combinations, enhancing their understanding of color and enjoying creative play.

Material: Waterproof multi-layered wood with a standard coating for children's toys, and durable colored plexiglass.

Peices: 16 wooden pieces in the shapes of square, rectangle, triangle, and semicircle with dimensions of 7 centimeters.

Package Size: 35 x 35cm

BISHEH MISHEH

How to play: Children can engage with this game in various ways. They can create displays by arranging animals and elements together (role-playing games), match the layouts and pieces with the patterns on the cards (spatial visualization games), and explore the concept of balance by stacking the pieces (balance games).

Material: Waterproof multi-layered wood with a standard coating for children's toys

Peices: 5 animal pieces and 5 environmental element pieces, along with 6 pattern cards featuring 12 designs.

Package Size: 18 x 16cm

Our guarantee is the high quality of our products. Active play, learning, and exploration are the gifts our products bring to your children. All Boomzi products are designed with a focus on detail, usability, and safety. Boomzi toys make your children curious and adventurous. This is our goal and the reason we strive for it. This commitment is for you.
